

the substantial evidence that unborn babies at this stage can and do feel pain.

I am proud to support H.R. 36, and I am glad it passed the House. I will continue to do all I can to advance a culture of life in Idaho and in America.

HUMANITARIAN CRISIS IN PUERTO RICO

(Ms. GABBARD asked and was given permission to address the House for 1 minute.)

Ms. GABBARD. Mr. Speaker, right now, 3.5 million Americans, our fellow citizens, are facing a humanitarian crisis. In Puerto Rico, the majority of people still lack basic electricity, clean drinking water, and medicine, the bare basic necessities just to stay alive—not to speak of the basic resources they need to begin the great task of rebuilding their lives and their communities.

It has been days since the hurricane passed over Puerto Rico leaving death and destruction in its wake. The people of Puerto Rico are literally crying out for help. There are far too many, especially those in rural communities, who still have not been reached by those bringing aid. As a Representative from an island State in Hawaii, I can only imagine their frustration and desperation.

I urge the administration to dedicate all available resources to helping the people of Puerto Rico. Work with Congress to pass an emergency aid package to ensure that those delivering aid have what they need to help the people of Puerto Rico and save lives.

ALLOWING VA-CREDENTIALLED HEALTHCARE PROVIDERS TO PRACTICE TELEMEDICINE ACROSS STATE LINES

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to commend the Department of Veterans Affairs for proposing a rule that will allow VA-credentialed healthcare providers to practice telemedicine across State lines. This is excellent news because our veterans should receive the best care possible no matter where they live or are located.

With advances in technology, we see new opportunities for veterans to obtain coverage through telemedicine, especially in some of our most rural areas.

The VA rule is similar to a bill that I introduced together with Representative JULIA BROWNLEY, called the VETS Act. The existing licensure requirements for VA service providers are not in line with the technology and care available today.

Outdated regulations prevent individuals who receive care within the VA system from accessing qualified providers who utilize telemedicine simply

because of the geography and a State border. That is wrong, and we must change it.

I urge my colleagues to cosponsor the VETS Act and work to give our veterans access to the best care possible. Our servicemen and -women answered their country's call. Let's be there for them when they return home.

INTRODUCING LEGISLATION TO BAN BUMP STOCKS TO CONVERT SEMIAUTOMATIC WEAPONS

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, 58 innocent people were murdered in Las Vegas. Their killer used 12 bump stocks to convert his semiautomatic weapons into the equivalent of a machine gun.

No one should possess one of these devices, let alone 12 of them, and that is why I am introducing legislation to ban them.

But I am mindful, Mr. Speaker, that we have been here before after Newtown, Aurora, San Bernardino, Orlando, and other mass shootings. Each time, my Republican friends have refused to act.

Now, in the wake of the worst mass shooting in modern history, our Republican colleagues are not only refusing to act, but they are going to make the problem even worse by pressing proposals that will make the problem worse, making it easy to carry a concealed weapon, making it easier to buy a silencer. I mean, this is insane.

I get it. Elections have consequences. You won last November so you get to do what you want, but this is wrong. Let's come together and do something. And I promise you, if Congress fails to respond to the demand for common-sense gun safety legislation, we will be held to account by those we serve, and rightly so. So let's work together and do something.

PASS TAX CUTS FOR THE AMERICAN PEOPLE

(Mr. MESSER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MESSER. Mr. Speaker, we have an incredible opportunity to pass tax cuts for the American people. I appreciate President Trump's leadership on this issue as well as the leadership of Chairman BRADY in working to pass the President's tax plan.

While we are working on tax cuts, I rise today to urge the chairman and the Ways and Means Committee to also eliminate tax credits for illegal immigrants. Most Hoosiers get it: we can't continue to reward people who come to our country illegally while those who work hard and play by the rules struggle to get ahead.

I have authored legislation to close the loophole that allows \$7 billion in refundable child tax credits to be paid

out to illegal immigrants every year. This money should be used to increase the child tax credit for law-abiding American families. President Trump included this proposal in his budget request to Congress, and I believe it should be included in the President's broader tax plan.

RISING IN SUPPORT OF FULLY FUNDING THE CHILDREN'S HEALTH INSURANCE PROGRAM

(Mrs. LAWRENCE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. LAWRENCE. Mr. Speaker, I rise today to fully support the funding of CHIP, the Children's Health Insurance Program. CHIP plays a very important role in providing low-income children across the country with health insurance.

Without CHIP, over 9 million children nationwide, including 90,000 in my great home in Michigan, will lose access to doctor checkups, immunizations, and basic healthcare.

For the last 2 days, we heard numerous concerns for the unborn children. We must show that same compassion toward the low-income children who are alive and living in our communities, whose access to critical healthcare, including CHIP, is a matter of life or death.

CHIP's impact is felt in communities of color, 52 percent of Hispanic and 54 percent of all Black children nationwide.

As Members of Congress, we have a duty to protect our Nation's children. We need to extend funding for CHIP and support the millions of families who rely on this program. Let's take care of our children in America.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 367

Mr. DEFAZIO. Mr. Speaker, I ask unanimous permission to remove my name from H.R. 367.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

FOCUS ON BIPARTISAN EFFORTS TO INVESTIGATE THE CAUSES OF GUN VIOLENCE IN AMERICA

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute.)

Mr. DEFAZIO. Mr. Speaker, in light of the tragic and horrific events this Sunday, I believe our focus should be on bipartisan efforts to investigate the causes and lessen the potential for gun violence in America. That is why I am calling on Speaker RYAN to name a select committee to address these issues.

Additionally, I believe the Republican leadership should formally withdraw their so-called sportsman's package, which has many objectionable provisions.
